# and enjoy

**Lifestyle Landscape Designs** is a landscape design and construction company which offers a comprehensive service to design and build quality landscapes. Specializing in complete landscape projects, Lifestyle Landscape Designs has 3 divisions: Design, Construction and Maintenance.

## Design

Each landscape design is carefully tailored to meet the requirements of the property and the desires of the client. Focusing on lifestyle choice is fundamental to the management of your outdoor space.

Through clever design, with a blend of horticultural expertise, functionality, and aesthetics in mind, we will include all the necessary elements for your landscape to achieve the best long term results.

With each design being personalized to your desired style, taste and a reflection of your requirements, our technical, constructional input and advice will also ensure your landscape design will work as a complete concept.

This can be as simple or as multifaceted as you like. The design staff will provide guidance on the best, most efficient and most cost effective plan and materials, specific to the design plan. This process serving to ensure your landscape budget requirements are also fully met.

The final result will be a beautiful garden landscape that complements your home, and your lifestyle, in an environment that enhances your enjoyment with family and friends.

## Construction

Lifestyle Landscape Designs pride themselves on meticulous attention to detail and quality assurance in the construction of landscapes. As licensed Structural Landscapers and Qualified Construction Supervisors, the company is highly qualified, and fully insured; having extensive experience in managing all aspects of landscape construction.

## Maintenance

Where garden maintenance is required, Lifestyle Landscape Designs also offers either a scheduled or impromptu garden maintenance service which is managed and completed by qualified staff. This will ensure excellent presentation along with all the health benefits for your garden.

Our services also include Transformative projects; where tired or neglected gardens are revitalized into fresh and lively landscapes.

The Lifestyle Landscape Designs team is professional, friendly, enthusiastic and entirely focused on delivering a quality product to your complete satisfaction. We sincerely look forward to working with you.
